

Maryland Medicaid Advisory Committee Diabetes Update

Frances B. Phillips, RN, MHA
Deputy Secretary for Public Health Services

January 27, 2020

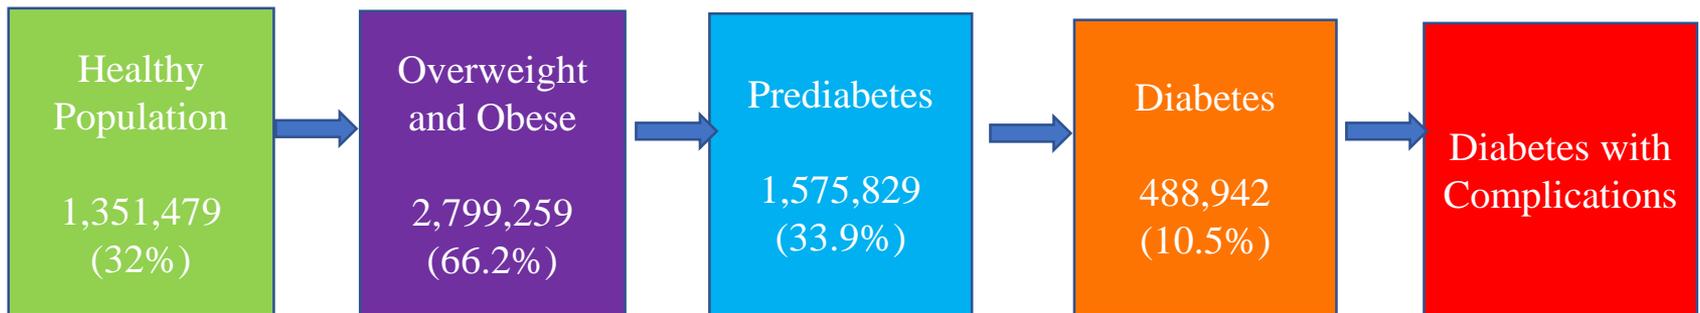

Diverse Approaches for Integrated Health Improvement

Diabetes: Maryland's First Population Health Improvement Goal

- Leading cause of preventable death and disability
- Increasing prevalence reflecting significant racial, ethnic and economic disparities
- EBIs can prevent or delay onset and improve outcomes
- MD Medicaid launched DPP coverage this Fall
- Diabetes/obesity cited as a top priority by every jurisdiction's LHIC
- Strong private sector support for a sustained statewide initiative

Diabetes in Maryland

Maryland Adult Population, 4,648,466

Data from: US Census; 2017 Maryland BRFSS, and for Prediabetes, CDC Fact Sheet for NHANES US prediabetes estimates applied to Maryland adult population.
